

Healthcare Commission Community Mental Health Survey 2006

Gloucestershire Partnership NHS Trust took part in the Healthcare Commission's Community Mental Health Survey between January and March 2006.

A questionnaire reflecting the priorities of Service Users across 8 areas of care was sent to a random 850 people subject to the Care Programme Approach who had received a service in the previous 3 months. For the first time questionnaires were sent to service users over the age of 65 years but the benchmark reports have been calculated using only respondents aged 65 years and under to enable comparability with previous surveys. 198 questionnaires were therefore evaluated and the findings compare the Partnership Trust with the other 79 Trusts who participated.

These comparisons can be seen on this website together with a paper recently presented to the Trust's Practice Standards Committee. There is also an update to the action plan which addressed the findings of the 2005 Survey together with an action plan to address the areas identified by this Survey as needing improvement.

If you have any questions about the Survey please contact Jennifer Berry, Mental Health Development Manager on 01452 891098 or jennifer.berry@glos.nhs.uk
